

UCFID: _____

1) (10 pts) DSN (Binary Trees)

For example:

```
find_below(root, 196) would return 22
find_below(root, 1)  would return 1
find_below(root, 4)  would return 1
find_below(root, 22) would return 18
find_below(root, 20) would return 18
find_below(root, 8)  would return 7
find_below(root, -23) would return -23
```

The function signature and node struct are given below.
